

# YouTube iframe extension

Extension for [league/commonmark](#) to replace youtube link with iframe.

## Install

```
composer require zoon/commonmark-ext-youtube-iframe
```

## Example

```
$environment = \League\CommonMark\Environment::createCommonMarkEnvironment();
$environment->addExtension(new \Zoon\CommonMark\Ext\YouTubeIframe\YouTubeIframeExtension($environment));
$converter = new \League\CommonMark\Converter($environment, [
    'youtube_iframe_width' => 600,
    'youtube_iframe_height' => 300,
    'youtube_iframe_allowfullscreen' => true,
], $environment);
echo $converter->convertToHtml('Check this: [](https://youtu.be/mVnSpPMgoWM?t=)');
echo $converter->convertToHtml('Check this: [](https://www.youtube.com/watch?v=)');
```

<p>Check this: <iframe width="600" height="300" src="https://www.youtube.com/e

<p>Check this: <iframe width="600" height="300" src="https://www.youtube.com/e
